Aditya Anjne

Personal Profile

A motivated Software Engineering student with hands-on experience in building full-stack web applications using Java, Spring Boot, Hibernate, React.js, SQL, and RESTful APIs. Proficient in developing secure, scalable, and database-driven applications with expertise in object-oriented programming, data structures, and modern software development practices. Experienced in integrating Generative AI using the Gemini API to build intelligent web applications. Passionate about solving real-world problems through clean, efficient code and eager to contribute to innovative software engineering teams.

Education

Oriental Institute of Science and Technology, Bhopal

B.Tech in Information Technology (CGPA: 7.17)

2022 - 2026

Bhopal, Madhya Pradesh

Technical Skills & Tools

- **Programming Languages:** Java, Python, SQL, HTML, CSS, JavaScript
- **Core Concepts:** OOP, DSA, DBMS, Collections Framework, Exception Handling, Multithreading
- **Frameworks:** Spring, Hibernate, Spring Boot
- **Databases:** MySQL, OracleDB
- **AI & Gen-AI:** Prompt Engineering, Gemini API
- **Developer Tools:** Git, GitHub, VS Code, IntelliJ IDEA, Postman, Copilot, Claude Code

Work Experience

Evendri.in (Software Engineer - Intern)

February 2026 - May 2026

- Building a D2C e-commerce platform for a premium food brand, enabling product discovery & product detail pages.
- Integrating secure payment solutions like UPI, credit/debit cards, COD for reliable checkout experience.
- Technologies: *Java, MySQL, JDBC, HTML, CSS, JavaScript*

Projects

GreenLoop | *React, Spring Boot, Spring Security (JWT), JPA/Hibernate, MySQL, Gemini API, Cloudinary* |

[Live Link](#)

- Designed and implemented a role-based agricultural marketplace enabling farmers, distributors, retailers and customers to manage products, orders, and transactions through secure workflows.
- Built RESTful APIs to streamline product management, order processing, AI-powered crop recommendations, and cloud-based image handling, improving overall application functionality and user experience.

My Quiz App | *HTML, CSS, JavaScript, Gemini API, Prompt Engineering* |

[Live Link](#)

- Developed an AI-powered quiz generation platform that dynamically creates multiple-choice questions based on user-provided topics, difficulty levels, and preferred languages, reducing manual quiz creation efforts.
- Designed an interactive and responsive user interface with real-time answer validation, instant AI-generated explanations, performance tracking, and analytics dashboard to enhance user learning experience.

Achievements & Certifications

Achievements & Honors

- Demonstrated algorithmic proficiency by solving **200+ DSA questions** across multiple competitive coding platforms.
- Designed scalable system architecture and led a **6-member team** to deliver all project milestones on schedule.
- **Runner-up** in the competitive Nodal Level Basketball Tournament RGPV Bhopal.

Certifications

- NPTEL – Database Management System
- TCS iON Career Edge – Young Professional
- Cisco – IT Sales Job Simulation
